O = Other

REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A"

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Trenton, NJ 08625-0402

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

EVENTS OF PUBLIC INTEREST

DATE: December 9, 2014

TIME: 9:30 a.m.

PLACE: Water and Wastewater Operator Licensing
Public Meeting
401 East State Street, 4th floor Conf. Room
Trenton, NJ

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD
REGARDING THE MODIFICATION OF A NJPDES-DGW PERMIT FOR A SOLID WASTE LANDFILL**

Notice is hereby given that the Division of Solid and Hazardous Waste of the New Jersey Department of Environmental Protection (Department) proposes to modify New Jersey Pollutant Discharge Elimination System-Discharge to Groundwater (NJPDES-DGW) Permit NJ0063801 issued to Stow Creek Township for the groundwater monitoring wells at the Stow Creek Sanitary Landfill in Cumberland County, New Jersey. This notice is being given in accordance with the provisions of the New Jersey Water Pollution Control Act (N.J.S.A. 58:10A-1 *et seq.*) and its implementing regulations (N.J.A.C. 7:14A-1 *et seq.*). The modification involves reducing the frequency of groundwater monitoring from quarterly to semi-annual. Copies of this Notice have been sent to the Stow Creek Township, the Cumberland County Health Officer, and the Cumberland County Solid Waste Manager.

The permit modification is based on the administrative record which is on file at the offices of the Department's Division of Solid and Hazardous Waste located at 401 East State Street, Trenton, Mercer County, New Jersey. It is available for inspection between 8:30 a.m. and 4:30 p.m., Monday through Friday. Further information regarding file inspection may be obtained by contacting Ms. Lisa Offredo at (609) 984-5950.

Interested persons may submit written comments on the proposed permit modification to:

Mail Code 401-02C
Anthony Fontana, Chief
Bureau of Solid Waste Permitting
NJ Department of Environmental Protection
P.O. Box 420
Trenton, New Jersey 08625-0420

All comments must be submitted within 30 days of the date of this public notice. The Department shall make a final decision after the close of the public comment period. Prior to the issuance of a final decision, the Department shall consider all comments submitted by interested persons in response to this notice within the public comment period. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of the final decision.

Any person may request in writing that the Department conduct a non-adversarial public hearing on the proposed action. Said request shall state the nature of the issues to be raised at the hearing and shall be submitted to the above address within 30 days of the date of this public notice. A public hearing shall be conducted whenever the Department determines that there is a significant degree of public interest in the permit action. If a public hearing is held, the public comment period shall automatically be extended to the close of the hearing.

Additional information, as well as a fact sheet concerning the proposed permit modification, may be obtained by contacting John Shevlin of the Bureau of Solid Waste Permitting at the above address or at (609) 292-9880.

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**Adopted Amendment to the Ocean County Water Quality Management Plan
Public Notice
Clinton Avenue, Lakewood**

Take notice that on **November 25, 2014** pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), the Department of Environmental Protection (Department) adopted an amendment to the Ocean County WQMP. This amendment, entitled "Clinton Avenue Lakewood", submitted on behalf of Aaron Perlow, expands the Ocean County Utilities Authority (OCUA) sewer service area (SSA) by approximately 7.6 acres. The proposed project site is located in Lakewood Township, Ocean County on Block 1159/Lots 25, 26, 28 through 38, and 86.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2013, c.188. This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Review of the proposed project site has determined that there are no ESA's identified on the parcel.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the existing zoning for the above mentioned lots has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from the lots should they be developed in accordance with existing zoning regulations.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for any proposed development on the property will be provided by the Lakewood Township Municipal Utilities Authority which is a public water system. The existing water allocation permit will not require modification to serve the proposed project

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Lakewood Township has an adopted stormwater management ordinance (No. 2006-22) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, a riparian zone has been identified on the proposed project site as the property is bisected by a tributary to the Kettle Creek (FW2-NT/SE1). Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The required buffer width for Crystal Creek is 50 feet. In accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by the exclusion of the buffer area from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the proposed project site has determined while the site had previously been included in a larger area mapped as Threatened and Endangered Species Habitat by the Landscape Project, subsequent development of adjacent properties has reduced the contiguous habitat area on the proposed project site to under 25 acres, thus removing it for consideration as an Environmentally Sensitive Area, as defined under N.J.A.C. 7:15-5.24, to be excluded from consideration as a sewer service area

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation, L.O.I. #1514-05-0019.1 FWW050001, issued by the Department's Division of Land Use Regulation (DLUR) on December 8, 2005, was submitted to the Department, confirming the presence and boundaries of ordinary and intermediate resource value wetlands, requiring a 50-foot buffer. In compliance with the LOI, the proposed SSA excludes both the mapped wetlands and associated 50-foot buffer, together which amount to approximately 3 acres. This L.O.I. remains valid under the Permit Extension Act at N.J.A.C. 7:1B until June 30, 2015.

This amendment proposal was noticed in the Department Bulletin on August 20, 2014, Volume 38 Issue 16, pages 15-17, and no comments were received during the comment period.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

Adopted Amendment to the Upper Delaware Water Quality Management Plan (WQMP) La Torre Plaza Commercial Development

Take notice that on **November 7, 2014**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Upper Delaware WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted on behalf of Mr. Pio Mannino, of Trinacria, LLC, as the property owner, expands the sewer service area (SSA) of the Warren County Pequest Municipal Utilities Authority (MUA) Belvidere Wastewater Treatment Facility (WTF) to include the La Torre Plaza Commercial Development located on Block 21, Lot 7.03 in White Township, Warren County. The Warren County Pequest MUA Belvidere WTF discharges to the Delaware River under NJDPES permit number NJ0035114.

This amendment proposal was noticed in the New Jersey Bulletin on August 20, 2014 at 38, 16 and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Trenton, New Jersey 08625-0420**

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

Proposed Amendment to the Ocean County Water Quality Management Plan

Public Notice
Lacey Affordable Apartments

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Ocean County Water Quality Management (WQM) Plan. This amendment proposal, entitled “Lacey Affordable Apartments”, submitted on behalf of Lacey Township, would expand the Ocean County Utilities Authority (OCUA) sewer service area (SSA) by 3 acres to allow for the construction of an affordable housing apartment complex.

The proposed project site is located in Lacey Township, Ocean County on Block 1837 Lots 8.02 and 9 on the west side of Municipal Lane. This amendment would allow for the construction of 70 apartment units with a total of 13 one-bedroom apartments, 43 two-bedroom apartments, 14 three-bedroom apartments; a maintenance building and a rental office/clubhouse on the above referenced parcels. This project has received a Coastal Area Facility Review Act (CAFRA) individual permit, No. 1512-03-0019.1, from the Department’s Division of Land Use Regulation (DLUR) on July 23rd, 2014. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3 is 16,091 gallons per day (gpd).

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L. 2013, c.188. This preliminary notice represents the Department’s determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Review of the proposed project site has determined that there are no ESA’s identified on the portion of the parcels proposed to be included in the sewer service area.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the Property.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the Property.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the existing zoning for the above mentioned lots has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from the lots should they be developed in accordance with existing zoning regulations.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for the proposed development on the property will be provided by the Lacey Township Municipal Utilities Authority which is a public water system which withdraws water from the Kirkwood-Cohansey and Atlantic City 800

Foot Sands aquifer. The existing water allocation permit will not require modification as the proposed project will only have a minimal impact on the water system.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Lacey Township has an adopted stormwater management ordinance (No. 23-Jun) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)i –vii. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. Review of the proposed project site has determined that no riparian zones exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the proposed project site has determined that a portion was identified as Barred Owl habitat in Landscape Project version 3.1. This issue was resolved during the review of the aboved mentioned CAFRA application. DLUR concurred with the applicant's Environmental Compliance Report and Endangered or Threatened Wildlife Species Habitat Evaluation which cited "an absence of freshwater wetland communities; structural inadequacy of upland vegetation communities; absence of potentially suitable nesting cavities; fragmented suburban landscape; potential competitor/predator influences; and, a high level of human disturbance" thereby concluding that the parcels in question do not provide suitable barred owl habitat.

DLUR's also reviewed Critical Wildlife Habitat (CWH) as part of their CAFRA permit review in accordance with N.J.A.C. 7:7E-3.39. CWH are specific areas known to serve an essential role in maintaining wildlife, particularly in wintering, breeding and migrating. Based on guidance received from the NJ Division of Fish and Wildlife's Endangered and Nongame Species Program (ENSP), the Department considers patches of woody vegetation along the Atlantic seaboard to serve a critical role in providing resting and foraging habitat for migratory birds. Within the coastal zone mainland, patches of woody vegetation equivalent to 20 acres in size, and greater, function as migratory bird stopover habitat.

The proposed project site is located within a large woodland complex identified by the Department's Land Use Land Cover (2007) mapping. Through an analysis of current aerial photography and Land Use Land Cover mapping, it was determined that the extent of the complex is greater than 139 acres. As a result, the woodland community associated with the parcel in question exceeds the minimum patch size identified as a characteristic of migratory songbird habitat. The applicant has submitted documentation which is in agreement with this finding.

It was determined that as a result of the project approximately 4.48 acres of forest will be cleared. The Division has taken into account the amount of tree preservation to remain on site, however the above rule states that development that would directly or through secondary impacts on the relevant site or in the surrounding regions adversely affect CWH is "discouraged", unless the proposal includes appropriate mitigation measures. To demonstrate compliance with N.J.A.C. 7:7E-3.39, the applicant submitted a proposal to mitigate for the loss of CWH by offering 5.21 acres of

land off-site to be deed restricted in the future. The Division has determined that the proposal is acceptable for mitigation and therefore, a conditional compliance with Critical Wildlife Habitat is met. Condition 1 of the CAFRA permit specifies that this proposal must be submitted to the Department for review and approval within 90 days of the issuance of the permit. In addition, Condition 2 of the CAFRA permit specifies that within 90 days of the issuance of the permit the property owner shall sign a Department approved conservation restriction for an on site 1.89 acre tree preservation area. The tree preservation area, which will be located on the southern half of lot 9, is identified on the applicant's July 7th, 2014 site plan that was submitted with their WQM Amendment application.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the proposed project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). Review of the proposed project site has determined that no wetlands or wetlands buffers exist on site.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Ocean County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, 401 East State Street, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above, with a copy sent to Mr. Edmond Speitel, Speitel and Speitel Inc, 2 Eastwick Drive – Suite 102, Gibbsboro, NJ 08026. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment proposal.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF SETTLEMENT
CAFRA INDIVIDUAL PERMIT & FRESHWATER WETLANDS GENERAL PERMIT #6**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has issued a modification to a CAFRA Individual Permit and Freshwater Wetlands General Permit #6 that authorizes the construction of an 843 space surface parking lot involving the filling of 0.50 acre of isolated freshwater wetlands. The work is authorized under the Rules on Coastal Zone Management (N.J.A.C. 7:7E-1.1 **et seq.**), and the Coastal Permit Program Rules (N.J.A.C. 7:7-1.1 **et seq.**), as well as the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A-1.1 **et seq.**). The applicant submitted revised plans which are in compliance with the Rules on Coastal Zone Management and the Freshwater Wetlands Protection Act Rules. The project site is located on Huron Avenue in the City of Atlantic City, Atlantic County. The applicant is MAC, Corp. This settlement resolves the appeal of the suspension of File #0102-05-0001.1, CAF080001 and FWW080001.

IN THE MATTER OF:

MAC, Corp.

File No.: 0102-05-0001.1, CAF080001 & FWW080001
Block: 571, Lot(s): 2
City of Atlantic City, Atlantic County

Comments regarding this settlement may be forwarded within 15 days of this notice to: Bureau of Urban Growth & Redevelopment, Southern Region Supervisor, Division of Land Use Regulation, NJDEP, Mail Code 501-02A, PO Box 420, Trenton, NJ 08625-0420, or the office may be reached by telephone: (609) 984-6216.

Notice of the Department's intent to initiate a reconsideration of application of substantive standards under N.J.A.C. 7:7-1.10 of the Coastal Permit Program rules and to provide a 15 day comment period as provided in N.J.A.C. 7:7-1.10(l).

Reconsideration of application of substantive standards is being initiated for:

Kathleen Arena
7 Beach Avenue
Block: 319, Lot: 1.02
Lower Township, Cape May County
CAFRA Permit Application No. 0505-11-0006.1 CAF110001 & CAF110002

On May 3, 2011 the Department received Coastal General Permit 8 application #0505-11-0006.1 CAF110001 and CAFRA Individual Permit application #0505-11-0006.1 CAF110002 for the construction of a single-family dwelling with associated improvements at the subject property. The applications were denied on August 12, 2011 and September 29, 2011, respectively. The Department has begun to reassess the strict application of the coastal zone management regulations and will determine if construction of a single-family dwelling may occur in accordance with the amelioration rules under the Coastal Program pursuant to N.J.A.C. 7:7-1.10.

A 15-day public comment period shall commence upon the publication of this notice in the DEP Bulletin. Comments may be sent by email to: chris.dolphin@dep.nj.gov or by mail to:

New Jersey Department of Environmental Protection
Division of Land Use Regulation
Mail Code 501-02A, PO Box 420
Trenton, NJ 08625-0420
Attn: Christopher M. Dolphin, Section Chief
Bureau of Coastal Regulation

A preliminary analysis of the reconsideration of application of substantive standards may be obtained by contacting the above. A copy of the notice shall be sent to those agencies and individuals identified at N.J.A.C. 7:7-1.10(k).

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT RENEWAL
FOR A SOLID WASTE TRANSFER STATION**

The New Jersey Department of Environmental Protection, Solid & Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing **IWS TRANSFER SYSTEMS OF NJ, INC.** solid waste transfer station located at 375 Rt. 1 & 9 South, Jersey City.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 Municipal Waste (Household, Commercial and Institutional), ID 13 Bulky Waste, ID 13C Construction and Demolition Waste, ID 23 Vegetative Waste and ID 27 Dry Industrial Waste with an approved capacity of 1425 tons per day (Monday through

Saturday) but not to exceed 7950 tons of waste in a given week. IWS submitted two changes to the facility operation subsequent to the permit renewal application that are being incorporated into the renewal. These changes are a request to construct a truck wash area adjacent to the transfer station and a request to accept loads of ID 10 solid waste consisting of predominantly food rich waste for material recovery of the recyclable food material.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments concerning the draft permit action to:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste (Mail Code 401 – 02C)
401 E. State Street, P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid & Hazardous Waste Management Program, the office of Jersey City Clerk and the office the Hudson County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

Public Notice of Intention to Extend Landfill Post-Closure Care Period

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)6, of its intention to extend the post-closure care period for the H.S.L. Inc. Sanitary landfill located at 21 Old Beaver Run Road, in Lafayette, Sussex County by an additional 10 years.

The subject landfill ceased operating and was properly closed in 1984. The landfill has been maintained and monitored since closure during the post-closure care period. The Solid Waste Regulations at N.J.A.C. 7:26-2A.9(c)5 specify that landfill post-closure care periods shall continue for 30 years, but includes a provision that the post-closure care period may be extended or shortened. The Department may extend the post-closure care period upon a finding that such an extended period is necessary to protect human health and/or the environment.

The Department has determined that the H.S.L. Inc. Sanitary Landfill cap and leachate collection system require further maintenance, and the groundwater monitoring program has demonstrated the landfill is impacting groundwater quality, therefore, groundwater monitoring must continue. Based on this determination, the Department intends to extend the post-closure care period for the landfill for 10 more years.

If anyone from the public has questions or comments concerning the Department's intention to extend the post-closure care period, please send those questions or comments to the following address:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste (Mail Code 401-02C)
401 E. State Street, P.O. Box 420
Trenton, New Jersey 08625-0420

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 12/03/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
LONG BRANCH SEWERAGE AUTHORITY NJ0024783 DSW Major	150 Joline Ave Long Branch, NJ 07740 Monmouth County	Rachael Pepe Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Atlantic Coast (Sandy Hook to WhalePond)	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected, domestic wastewater into the Atlantic Ocean classified as SC waters. This existing facility has a NJPDES flow value of 5.4 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 2.84 MGD. This action proposes effluent limitations based on a flow of 5.4 MGD. Treatment units consist of screening, aerated grit chamber, primary settling tanks, aeration tanks, final settling tanks, and a chlorine contact tank.
SENECA GARDEN APARTMENTS NJ0065820 DGW	Rt 15 & Cella St Jefferson Twp, NJ 07849 Morris County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Crystalline Rocks II-A	Ground Water Renewal Permit Action This is a renewal NJPDES-DGW permit for Seneca Garden Apartments. Seneca Garden Apartments consist of 82 units and a maximum daily design volume of sanitary sewage of 16,350 gpd. The sanitary sewage is treated by means of an advanced wastewater treatment system and discharged to 3 subsurface disposal beds.
TOWNSHIP OF OCEAN SEWERAGE AUTHORITY NJ0024520 DSW Major	224 Roosevelt Ave Ocean, NJ 07755 Monmouth County	Brian Salvo Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Atlantic Coast (Whale Pond to Manasquan)	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge an average of 7.5 million gallons per day (MGD) (design flow) of treated domestic wastewater. Treatment consists of bar screens, grit removal, primary settling, final clarifier and chlorination. Residuals generated by this permittee are now regulated under general permit authorization NJG0198102.
BRISTOL-MYERS SQUIBB CO NJ0171565 SIU	Rt 206 & Province Line Rd Lawrenceville, NJ 08540 Mercer County	Fayard Ali Bureau of Pretreatment and Residuals (609)633-3823	EWING LAWRENCE SEWER AUTH WTP	Significant Indirect User (SIU) Renewal Permit Action The primary activity at this facility is pharmaceutical research, SIC Code 2834. Approximately 0.11 million gallons per day of mixed wastewater generated from various processes is being discharged to ELSA through discharge location point designated as 001L. The mixed wastewater is not being pretreated, but is pH adjusted prior to discharge.
UPPER PITTS GROVE TWP ELE SCH NJ0100625 DGW	Pine Tavern - Elmer Rd Upper Pittsgrove Twp, NJ 08343 Salem County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey II-A	Ground Water Renewal Permit Action The Upper Pittsgrove Township Elementary School is an existing 78,200 ft ² elementary school consisting of grades K-8. The school has no cafeteria or science laboratories and a maximum population of 600 students and staff, resulting in the generation of daily design volume of sanitary sewage of 9,000 gallons per day.

CROSSROADS AT OLDWICK NJ0104396 DGW	Rt 523 (oldwick Rd) Tewksbury Twp, NJ 08858 Hunterdon County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Brunswick II-A	Ground Water Renewal Permit Action The facility consists of 75 single family dwelling units, treatment plant and subsurface disposal fields. The design flow for the facility, based upon N.J.A.C. 7:14A-23.3(a), is 22,500 gallons per day (75 3 bedroom or larger units @ 300 gpd/unit). The wastewater is to be treated to groundwater quality standards prior to disposal to subsurface disposal fields.
CHRISTY BARTLES WASTEWATER FACILITIES NJ0138592 DGW	159 Oldwick Rd Rt 523 Oldwick, NJ 07830 Hunterdon County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Brunswick II-A	Ground Water Renewal Permit Action The project consists of the following components: 11 one-bedroom, 5 two-bedroom and 2 three-bedroom Alternative Living Units, 3 five-bedroom Senior Housing Units, Fire house with banquet hall, Library and a historical society house. The facility will generate a maximum quantity of 9,975 gpd of wastewater. The wastewater will be treated to the Ground Water Quality Standards prior to discharge to a subsurface disposal field.
MONROE MUA ASR WELLS 11 &14 NJ0155691 DGW	Corkery Ln & Black Horse Pk Williamstown, NJ 08094 Gloucester County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Raritan-Magothy II-A	Ground Water Renewal Permit Action Monroe Township MUA has applied to renew their existing NJPDES-DGW permit. This permit will cover 2 existing Aquifer Storage and Recovery (ASR) wells numbered: ASR well 11, and ASR well 14.
